

About Lane Construction

The Lane Construction Corporation is one of America's leading construction companies, specializing in large, complex civil infrastructure. For nearly 130 years, it has contributed to the development of the country's vast network of roads, highways, and bridges, including the Interstate Highway System. Lane also specializes in tunnels, metro and railway systems, as well as airports and water and wastewater treatment plants. Its affiliate, Lane Power & Energy Solutions, Inc., provides oil and gas storage facilities and services to the energy sector. Lane is a pioneer in the use of design-build and public-private partnership methods of project delivery. Its main projects include the I-10 Corridor Express Lanes in California; the I-395 Express Lanes Extension in Virginia; the Unionport Bridge Replacement in Bronx, New York; the Purple Line Transit Systems in Maryland; and the Anacostia River Tunnel in Washington, D.C. Based in Cheshire, Connecticut, it is wholly owned by Salini Impregilo, a global infrastructure group. For more information, visit www.laneconstruct.com. For more details about its parent company, visit www.salini-impregilo.com.

About the Salini Impregilo Group

Salini Impregilo is one of the major global players in the construction of large, complex civil infrastructure. It is a leader in the water sector such as dams and water treatment plants, as well as transport, where it is involved in the biggest sustainable mobility projects in rail and metro systems. Its record includes some of the world's most iconic projects in bridges, roads and motorways, civil and industrial buildings, and airports. The Group has 113 years of engineering experience on five continents, with design, engineering and construction operations in nearly 50 countries and more than 35,000 employees from more than 100 nationalities. It is a signatory of the United Nations Global Compact as it pursues the sustainable development goals of its clients, from clean water and energy to sustainable mobility to buildings with a low environmental impact. Its expertise is displayed in projects such as the Grand Paris Express metro system, Cityringen in Copenhagen, Sydney Metro Northwest, Red Line North Underground in Doha and Line 3 of the Riyadh Metro. Other projects include the expans
